- Experience with front-end frameworks like React, Angular, and Next.js.
- Proficiency in HTML, CSS, and JavaScript for building responsive and interactive web interfaces.
- Experience in working with RESTful APIs and integrating third-party libraries.
- Knowledge of UI/UX principles to create intuitive user experiences.
- Adaptability to quickly learn new technologies and frameworks.
- Strong problem-solving and analytical skills to tackle complex coding challenges.

TECHNICAL SKILLS

- **Programming/Scripting Languages:** JavaScript, TypeScript, HTML/CSS, Java, C/C++, Python
- **Tools/Frameworks:** React, Angular, Spring Boot, AWS, Git, Jest

EXPERIENCE

Front-End Developer

June 2022 – Present

Cognizant Technology Solutions, Plano, TX

- Developed a venue request scheduling app utilizing Angular and AWS, resulting in streamlined communication and efficient management of bookings.
- Collaborated with a team to develop a mock Instagram app using Angular and Spring Boot, resulting in a dynamic and visually appealing platform with enhanced user engagement and fostering positive feedback from project stakeholders.
- Contributed to the implementation of an onboarding management tool, optimizing the employee onboarding process and increasing efficiency by automating tasks, resulting in improved productivity, and reduced administrative overhead.

Tech Support Representative

June 2021 – June 2022

KeylessRide, Georgetown, TX

- Assisted customers in effectively utilizing our in-house programming tool for vehicles, guiding them through the setup and troubleshooting processes, resulting in improved customer satisfaction and increased tool adoption.
- Performed key cutting and programming for customers' vehicles, ensuring accurate replication of keys, resulting in enhanced customer satisfaction and timely resolution of their vehicle security concerns.
- Provided real-time troubleshooting assistance and expert advice to locksmiths during live programming attempts, enabling them to overcome technical challenges and successfully complete key programming tasks, resulting in increased customer confidence, reduced downtime, and improved overall satisfaction.

EDUCATION

Bachelor of Science in Computer Science

May 2021

Texas State University, San Marcos, Texas

- **Minor:** Mathematics
- **GPA:** 3.3
- **Relevant Coursework:** Web Programming, Data Structures and Algorithms, Database Systems

PERSONAL PROJECTS

Pats TX BBQ

- Designed and developed a dynamic website for my uncle's BBQ food truck, incorporating enticing visuals, intuitive navigation resulting in increased online visibility, customer engagement, and boosted sales.
